

# Is the Singapore Economy in Trouble now and what can we do about it?

**27 August 2020 (Thursday). 5.00 PM-6.15 PM (GMT + 8)**

The numbers are in for the 2nd quarter of 2020. 41.2% drop in quarter-on-quarter GDP. 12.6% drop in year-on-year GDP. What do these estimates of the economy mean for Singapore? How strong will the economic recovery be? Is the Singapore economy resilient enough to bear future waves of COVID-19 and its knock-on effects? Do the numbers reflect some functional or structural imbalance in Singapore? What are the implications for Singapore when the region and our trading partners are facing similar economic woes?

In the 2nd ESS webinar, join our expert panellists from academia and industry as they explore these issues and make sense of Singapore's latest economic estimates.

## PANELLISTS

**DANNY QUAH**  
Li Ka Shing Professor in  
Economics and Dean,  
Lee Kuan Yew School of  
Public Policy, NUS

**GUIYING LAURA WU**  
Associate Professor in  
Economics, School of Social  
Sciences, NTU

**PAUL SCHULTE**  
Founder, Schulte  
Research

## CHAired BY

**DAVID LEE**  
Professor, Singapore  
University of Social Sciences  
Vice President, ESS
